Contact log: **Comment:** CM's son has moved in with her. CM called for support on how to apply for a DBS for him.

Date uploaded: Friday, 25 August, 2017

Comment: CM requested assistance to complete EY2 forms for her son and daughter to be registered as her assistants - specifically during a period of recovery after a pending operation. I advised CM that until both of them have their DBS's and are registered as her assistants, they would not be permitted to do any intimate care for the children (nappy changing etc).

Comment: CM has undergone surgery on her arm. Surgeon advised her that as she works in childcare, she should not really work for about 6 weeks to aid her recovery. CM is not able to take this amount of time off, and her son and daughter will be supporting her when she returns to work in a week as her assistants. I advised CM to contact me if she needs any support or finds that it is too difficult for her to work.

Comment: Emailed CM to confirm health check, or send additional information so it can be uploaded.

Comment: CM called to ask advice - a parent has requested that she takes the child to get her booster shot... I advised CM to ask parent for written permission to do this.

Date uploaded: Wednesday, 31 January, 2018

Comment: CM called as she had a message from Ofsted to discuss her registration. She was anxious that she was going to be inspected, as her paperwork is 3 months overdue, since her arm operation. When Ofsted called again, it was regarding her EY2 form for her son, and not an inspection. I advised CM that she should prioritise getting her learning journals updated, and ensure that she stays on top of it - so that she will not have to go through this anxiety when she does get the inspection call.

Comment: CM advised that she tried to do her Safeguarding training on PACEY online, however each time she stopped, it would take her back to the beginning. I suggested that she needs to do the entire course in one go.

Comment: Called Tania for update on her meeting with parent. She advised that the parent is not concerned about the child's speech. Tania advised her to get an Audiology test and to get an assessment from SLT. Parent is going to advise. I advised Tania to keep the lines of communication open with the nursery teacher, now that she has permission, and to ask them if they can share any techniques of how to support his speech at the setting.
