Comment: Carline called for advice regarding a parent requesting that her 12yr old brings her 10yr and 8yr from the school to Carline's house. I advised her to get in writing from the parent that she is happy for the 12yr old to have sole responsibility for the younger children for the journey. Also advised her that the 12yr old is given Carline's phone number.

Comment: Carline called for advice regarding a child who had a fall at his house and arrived at Carline with blood under his eye. The parent asked Carline to take him to the hospital, as she cannot take time off work. Asked Carline if she has the permission form to access medical treatment, which she does. Suggested, as there are no other children at the setting she can take the child to the hospital, but to contact the mother to meet her there. Reminded her to take the child's folder with her.
