

Oral health training

Date Tue, 02 May 2017 09:30 - 12:00

Description This FREE oral health training package aims to deliver the following outcomes for practitioners:

- To understand why primary teeth are so important and be able to confidently deliver advice and key messages around oral hygiene routines.
- To understand the different factors and causes of tooth decay and how to prevent tooth decay in children.

The content of this training could be used to support School applications for Silver and Gold Awards, particularly as part of a targeted project, and Claire Mulrenan

Claire.mulrenan@walthamforest.gov.uk, Healthy Schools Lead, will be happy to offer additional support to plan ongoing activity beyond the training.

This course is also running on the 25th April, if that date is more suitable.

Venue Walthamstow Children and Family Centre, (Higham Hill) 313 Billet Road, Walthamstow, E17 5PX

Name Public Health

BookingInfo
