

3. My Story

[For more information about the Education, Health and Care Pathway click here to go to the Wiki Page to find out about the process and important documentation.](#)

Step 3 My Story

What happens in the assessment?

If it is agreed to start a statutory Education, Health and Care assessment, the Local Authority will ask all the professionals involved and the family, to complete all the necessary assessment reports. There is a statutory deadline of 6 weeks for the reports to be completed.

The family will complete an **['All about Me' parent advice]** which provides good, quality person centred information that can be used to develop the EHC Plan.

All about me

Child name: Carlos James Date of Birth: 15/11/2010

The child or young person can be supported to complete their **['All about Me']** information and this can be in a variety of formats dependent on the individual needs of the child/young person.

Schools will complete the educational advice: **[EHC Education Advice]**

Additional information to support the development of the EHC Plan can also be submitted:

- Child or young person - One Page Profile
- Schools SEN Support Plan

On receipt of all the reports the SEN Officer will meet with the family to go through all of the information and co-develop the EHC Plan.

Schools can ask to be involved in developing the EHC Plan and provide support to families and the SEN Officer.

Please log-in to download the ['All about Me' parent advice] and [EHC Education Advice] documents referred to above.
