Executive Summary

The DFE, using the school census, the National Database, and the social care return the SSDA903 create and maintain the pupil premium eligibility flag on which additional funding is based. The eligibility criteria of the 2013/2014 funding round was:

- 1) Service Child and/or
- 2) Looked After by a Local Authority for at least six months and/or
- 3) Free school meal claims in the past 6 years (also referred to as Ever 6)

School level allocations of pupil premium allocations are made available by the DFE from the following location:

<https://www.gov.uk/government/publications/pupil-premium-2013-to-2014-final-allocation-tables>

The DFE do not provide LAs direct to the pupil level pupil premium allocation dataset. The local authority Research Team match internal files to the January Census data to create a pupil level proxy to the DFE pupil premium. The majority of information in this report uses the local pupil level proxy as its base. It is comparable to the deprivation element of the 2013/2014 DFE Pupil Premium allocation. The table below shows it is within acceptable limits for further analysis.

	Primary Age Groups	Secondary Age Groups
Locally Worked Proxy to % Deprivation	34.8%	45.6%
DFE Final Allocation %	35.0%	45.4%

Unless otherwise stated local totals are worked to match as closely as possible the DFE allocation totals. The DFE totals are by phase, Primary and Secondary, based on age and national curriculum year. The DFE totals include pupils in Special schools.

Headlines

Primary Phase pupil premium eligibility is inline with the London average.
Secondary Phase pupil premium eligibility rates are higher than the London average.

Pupil premium eligibility in both phases is greater than the National average.
Secondary Phase pupil premium eligibility rates are higher than the London average.

Primary Phase pupil premium eligibility has remained at approximately 35% of roll in the past two years.
Secondary Phase pupil premium eligibility has increased over the past two years from 43% to 46%

Eight percent of primary pupils eligible for the pupil premium are not recorded as claiming free school meals around the time of the January 2013 census. This has remained the same for two years.
Seventeen percent of Secondary pupils eligible for the pupil premium are not recorded as s claiming free school meals around the time of the January 2013 census. In 2012 this figure was sixteen percent.

Recent FSM eligibility and the Pupil Premium

Generally and as expected schools experiencing higher rates of current FSM eligibility also experience high rates of pupil premium. Schools with lower rates of current FSM eligibility experience lower rates of pupil premium. There are however a few exceptions:

School Name	FSM Jan. 2013	Pupil Premium (FSM Ever)
Chapel End Junior	26.5%	41.4%
Downsell Primary	30.2%	42.4%
Primary Total	27.2%	34.8%
Buxton School	31.7%	51.2%
Willowfield	32.1%	50.1%
Secondary Total	28.7%	45.6%

The schools named in the table experience FSM rates broadly inline with the borough phase average. However the proportion of pupils attracting the pupil premium is significantly higher than the borough average.

This means either:
The recording of current Free School Meals does not reflect the true number of eligible families and children or
The schools attract families whose personal financial position has improved in recent years meaning they are no longer relatively deprived requiring additional support.

The Pupil Premium Ever 6 Component -- Methodology

The phase discrepancy between primary and secondary is explained by the eligibility criteria for Ever 6 FSM. Ever 6 FSM forms the largest component of the pupil premium.

The table below shows how historical eligibility for Free School Meals moves through the year groups. All Secondary phase pupils can qualify for Ever 6 by virtue of historical FSM as many as six years ago. This is not the same with Primary year groups.

A pupil eligible for Free Meals in Reception and not thereafter will lose Ever 6 by the end of Primary School.
A pupil eligible for Free Meals in Year 7 and not thereafter will remain Ever 6 for the duration of Secondary school.

This Ever 6 methodology and the relationship with a child's progression through why pupil premium is much higher in the Secondary Phase than in the Primary Phase. It also explains why pupil premium increases in each year group reaching a high point in Year 7 before tailing off slightly towards the end of the Secondary Phase.

Year making Free Meal Claim	R	1	2	3	4	5	6
R	Y	PP	PP	PP	PP	PP	No PP
1	No PP	Y	PP	PP	PP	PP	PP
2	No PP	No PP	Y	PP	PP	PP	PP
3	No PP	No PP	No PP	Y	PP	PP	PP
4	No PP	No PP	No PP	No PP	Y	PP	PP
5	No PP	No PP	No PP	No PP	No PP	Y	PP
6	No PP	No PP	No PP	No PP	No PP	No PP	Y
Max. School Years to accrue Ever 6	1	2	3	4	5	6	6

FSM claims initialised in the Primary phaseshaded Blue. FSM claims initialised in the Secondary Phase shaded green.
Initial FSM = Y PP = transferred historical FSM (Max. 6 Years)

Year making Free Meal Claim	7	8	9	10	11
7	No PP	No PP	No PP	No PP	No PP
	No PP	No PP	No PP	No PP	No PP
	Y + PP	PP	PP	PP	PP
8	PP	Y + PP	PP	PP	PP
9	PP	PP	Y + PP	PP	PP
10	PP	PP	PP	Y + PP	PP
11	PP	PP	PP	PP	Y + PP
Max. Years to accrue PP Per Year Group =	6	6	6	6	6

Executive Summary

Comparing between current claimants and Ever 6 in different Year Groups shows the largest proportions of Ever 6 pupils not currently experiencing financial deprivation is at the highest in Year 7. This is a result of the transfer of Ever 6 also shows that the
The difference between PP and FSM is in Reception and grows by approximately 3% a year until Year 5 where it stays steady until the end of Primary Phase.
Fifty percent of pupils in Year 7 attract the Pupil Premium but only thirty percent are recorded as currently eligible. The large difference is made up by transferred eligibility initialised in the Primary Phase at any point since the start of Year 2.

The ratio of recent FSM to historical PP eligibility is:

10: 3 in the Primary Phase

10: 6 in the Secondary Phase

This means it is easier to target PP support in the Primary phase based on simple current FSM registrations than in the Secondary Phase.

Performance Outcomes

Key Stage 2

Pupil Premium Eligible pupils do significantly better in Waltham Forest schools than on average nationally.

The performance gap between local pupil premium eligible peers and their peers is 7% narrower than on average Nationally.

The gap between locally eligible pupils and their peers narrowed between 2012 and 2013.

Twelve Primary schools have inverse performance gaps.

Twelve Primary schools have gaps larger than the national average.

The performance of PP pupils in the twelve schools with larger than average gaps was not significantly below the national average for Pupil Premium pupils.

Key Stage 4

Pupil Premium Eligible pupils do significantly better in Waltham Forest schools than on average nationally.

The performance gap between local pupil premium eligible peers and their peers is 13% narrower than on average Nationally.

The gap between locally eligible pupils and their peers narrowed between 2012 and 2013.

Two Secondary Schools have inverse performance gaps: Buxton and George Mitchell.

Prior Attainment at the Previous Key Stage

Local analysis shows the prior attainment of Pupil premium eligible pupils is lower than their ineligible peers.

Proportionally fewer eligible pupils are in the higher achieving band at the last Key Stage.

Proportionally more eligible pupils are in the lower and middle achieving band at the last Key Stage.

Local Residence and Ever 6 Pupil Premium

The following statements relate to both phases:

As expected there are higher percentages of pupils eligible for the Ever 6 element of pupil premium as a percentage of all pupils living in relatively deprived residential areas.

Pupils travelling from other Local Authorities to schools in Waltham Forest are more likely to be Ever 6 Pupil Premium Eligible than local resident pupil population.

Cathall has the highest proportion of resident pupils eligible for the pupil premium.

In absolute terms resident pupils of the Higham Hill ward attracts more pupil premium funds into local schools than any other ward.

The ward with largest percentage difference between current claimants (January 2013) and Ever 6 PP as at January 2013 is Cathall.

The ward with the highest proportion of Primary pupils claiming Free School Meals in January 2013 was Cathall Hall

The ward with the highest proportion of Secondary pupils claiming Free School Meals in January 2013 was Higham Hill

The Incidence of Pupil Premium in Other Smaller or Vulnerable Pupil Groups

Special Educational Needs (SEN)

Pupil premium eligibility is the highest in the School Action Plus category.

This is the same as Free School Meals eligibility which is proportionally higher in the School Action Plus group than in any other SEN group.

This is a national known affect. Free School Meal rates among School Action Plus pupils are higher than on average for all other SEN groups including those with Statements.

Pupil Premium eligibility is highest among pupils recorded as having Behaviour, Emotional & Social Difficulties in both phases than pupils recorded by any other SEN Need type.

Black and Minority Ethnic Groups

The proportion of pupils eligible for Pupil Premium is the highest for Black African pupils.

In Secondary year groups the proportion eligible for pupil premium from Black African ethnic groups is 72%

In Primary year groups the proportion eligible for pupil premium from Black African ethnic groups is 58%

Significantly less likely to be eligible for Pupil Premium than on average for all pupils in the Borough -- Both Phases

White - British

Any Other White Background

Indian

White and Asian

Chinese

Groups sig. less likely in the Primary Phase but more likely in the Secondary Phase

Pakistani

Groups sig. more likely in the Primary Phase but less likely in the Secondary Phase

None

Gender

As expected the gender of the child has no bearing on pupil premium eligibility.

Significantly more likely to be eligible for Pupil Premium than on average for all pupils in the Borough -- Both Phases

Black - African

Any Other Black Background

White and Black Caribbean
